

# Pacifica Archery — Public Web Experience

Engineering & design brief for Claude Code

Target site: <https://www.pacificaarchery.com/> · 2995 Junipero Serra Blvd, Daly City, CA 94014 · (650) 756-4868 · [info@PacificaArchery.com](mailto:info@PacificaArchery.com) · Prepared June 2026

**Mission for this build.** Redesign Pacifica Archery's public website into an exciting, conversion-focused sales tool that positions the shop as the **#1 archery venue in the Bay Area** — an inclusive, all-ages, all-genres sport — and drives online bookings of lanes, lessons, and packages. The current site is functional but under-sells a genuinely strong business. Lead with energy, clarity, and an effortless path to "Book Now."

## 1. How to Approach This

**Step 1 — Visit and audit the live site** at <https://www.pacificaarchery.com/>. Catalog the existing pages, the booking flow, the visual style, and the technical stack. Note specifically: is it a JavaScript single-page app with no server-side rendering? If so, search engines and link previews may not see the content — fixing crawlability/SEO is a first-order goal, not a nice-to-have.

**Step 2 — Preserve what works:** the existing online booking capability and the liability-waiver flow. Keep the booking integration; just make it faster to reach and visually louder.

**Step 3 — Rebuild around the structure, positioning, and content in this brief.** Every section below maps to a real business asset. Use the exact pricing in §6 and the location/parking content in §8.

## 2. Positioning & Brand Voice

**"The Bay Area's #1 archery venue — indoor, all year, all ages, all skill levels."**

Archery is having a cultural moment (Olympics, Hunger Games, Hawkeye, Brave) and skews welcoming and inclusive. The tone should be **energetic, confident, and warm** — not tactical/hunting-coded, not intimidating to beginners. Convey that anyone aged 8 to 80, any gender, any experience level, can walk in and have a great time today.

#1 Archery Venue in the Bay Area

Indoor 25-foot lanes

All ages & all genres welcome

Equipment + training included

FREE parking

Right off the freeway

Family owned since 1998

### Core messages to repeat across the site

- **Excitement & accessibility:** a fun, safe, indoor sport you can try this week — no experience or equipment needed.

- **Inclusivity:** all ages (8+), all genders, all skill levels. Show diverse archers in imagery.
- **Authority:** 25+ years, expert coaches, the only full-service indoor range in the SF–northern-Peninsula corridor.
- **Convenience:** indoor & weather-proof year-round, FREE parking, direct freeway access near SF.
- **Easy yes:** transparent pricing and ready-made packages with a one-tap "Book Now."

### 3. Why This Matters (Business Context)

Pacifica Archery does not have a demand problem — it has a discovery problem. It sits in an affluent, archery-friendly catchment of ~1.5M reachable people and is the only full-service indoor range in its corridor, with 4.7★ reviews praising patient, knowledgeable, beginner-friendly staff. The website's job is to convert that latent demand into booked sessions by making the experience exciting and the booking effortless. The nearest competitor (a rental counter feeding the outdoor Golden Gate Park range) publishes no prices and offers no online booking — so transparent pricing and frictionless booking are an immediate competitive edge.

### 4. Sitemap & Page Structure

## 7. Design Direction

---

### Visual

- Energetic but trustworthy. Deep navy + a confident gold/amber accent; clean whites; one vivid action accent.
- Big, friendly typography; generous spacing; strong photography of real archers (diverse ages/genders).
- Motion used purposefully (arrow-hit moments), never gratuitous.
- Prominent, repeated "Book Now" in a sticky header.

### Technical

- **Mobile-first** — most discovery is on phones.
- **SSR or static rendering** so content is crawlable/indexable (fix the SPA-invisibility risk).
- Per-page SEO titles/meta; schema.org `LocalBusiness` + `SportsActivityLocation` markup with hours, geo, price range.
- Fast loads; compressed media; accessible (WCAG AA), keyboard-navigable, alt text.
- Keep existing booking + waiver integration; surface it everywhere.
- Open Graph tags so shared links show a rich preview.

## 8. Location & Parking Page (build this page)

---

A dedicated, high-converting location page. The goal: remove every "how do I get there / where do I park" hesitation, since FREE parking and freeway access are real differentiators versus parking-scarce San Francisco.

### Required elements

- **Embedded interactive map** (Google Maps embed) centered on 2995 Junipero Serra Blvd, Daly City, CA 94014, with a pin and a "Get Directions" link that opens the user's map app.
- **FREE PARKING** — make this a visual hero element on the page (large badge/callout). State that on-site parking is free and easy.
- **Freeway access** — "Directly off I-280 / Junipero Serra Blvd — minutes from downtown San Francisco." Include simple driving directions from SF (north) and the Peninsula (south).
- **Address, phone (click-to-call), email** — 2995 Junipero Serra Blvd, Daly City, CA 94014 · (650) 756-4868 · info@PacificaArchery.com.
- **Hours** — Tue–Fri 11:00am–8:00pm · Sat 10:00am–7:00pm. (Note: see recommendation to add Sunday hours; build the hours module so a Sunday row is easy to add.)
- **Transit/accessibility note** — wheelchair accessible; mention nearby landmarks for orientation.
- **"Book Now" CTA** repeated at the bottom of the page.

**Map embed snippet** (replace with a current Google Maps embed URL for the exact address):

```
<iframe src="https://www.google.com/maps?
```

```
q=2995+Junipero+Serra+Blvd,+Daly+City,+CA+94014&output=embed" width="100%" height="420" style="border:0" loading="lazy"></iframe>
```

**Parking headline copy to use:** "FREE on-site parking — no meters, no garages, no circling the block. Pull right up, grab your bow, and shoot." Pair it with the freeway-access line to make Pacifica the easy choice over driving into the city.

## 9. Conversion Checklist (definition of done)

---

- "Book Now" reachable in one tap from every page (sticky header).
- Full pricing visible as crawlable text, organized into Beginner / Intermediate / Advanced with discount bundles highlighted.
